1.0 Explanation of Terms and Abbreviations

Company or Carrier

Used throughout this price list to mean Wholesale Carrier Services, Inc. unless specified or clearly indicated by the context.

Consumer or Customer

A person, firm, partnership, corporation or other entity which arranges for the Company to provide, discontinue or rearrange telecommunications services on behalf of itself or others; uses the Company's telecommunications services; and is responsible for payment of charges, all under the provisions and terms of this price list.

WCS

Used throughout this price list to mean Wholesale Carrier Services, Inc.

V & H Coordinates

Mathematical location of wire centers as described in NECA FCC Tariff No. 10 and used by Bell Communications Research in rating tapes. V & H coordinates are used in determining the airline mileage between the originating and terminating points of a call.

2.0 Rules**2.1 General**

Wholesale Carrier Services, Inc. provides message telecommunications and alternate operator services. Calls are routed and terminated over resold transmission facilities. Calls may terminate to locations throughout the state of Idaho.

2.2 Limitations

- A. Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this price list. The Carrier reserves the right not to provide service to or from a location where the necessary facilities or equipment are not available.
- B. The Carrier reserves the right to discontinue service upon written notice, when necessitated by conditions beyond its control or when the Customer or Consumer is using the service in violation of the provisions of this tariff, or in violation of the law.
- C. Title to all facilities provided by Carrier under these regulations remains in the Carrier.
- D. Calls are branded and the billed party is notified that the carrier is Wholesale Carrier Services, Inc.

2.0 Rules, continued**2.3 Billing and Payment For Service****A. Payment for Service**

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer or to an end user of the Customer by the Company. All charges due by the Customer are payable to the Company or to any agency duly authorized to receive such payments (such as a local exchange company).

B. Disputed Charges

Charges billed directly by the Company are due upon receipt. Amounts not paid within 15 days of the invoice will be considered past due. For charges billed directly by the Company, notice from the Customer of a dispute as to charges must be received in writing by the Company within three years after the date of the invoice. Otherwise, all charges will be considered correct and binding.

For charges billed through the Customer's local exchange carrier, notice from the Customer of disputed charges must be received in writing by the Company within three years after the date of the bill is issued. Otherwise, all charges will be considered correct and binding on the Customer.

The Company will promptly investigate and advise all billed parties as to its findings concerning disputed charges. Adjustments to Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate. Customers may contact the Idaho Public Utilities Commission in the event of an unresolved dispute at the Office of Consumer Affairs, Idaho Public Utilities Commission, 472 West Washington, Boise, Idaho 883720.

3.0 Description of Service

3.1 General

Calls are billed based on duration, mileage, time of day and day of week. Per minute usage rates and a per-call automated collect call charge apply to all calls.

3.2 Timing of Calls

Chargeable time begins when the called party accepts the charges for the collect call. Chargeable time ends when the system detects that either party has "hung up".

3.3 Mileage Calculation

Charges for each call are computed on an airline mileage basis as described below.

Usage charges for all mileage sensitive products are based on the airline distance between the originating and terminating points of the call. The airline mileage between end points is determined by applying the following formula to the vertical and horizontal coordinates associated with the originating and terminating locations. The Company uses the wire centers and associated vertical and horizontal coordinates that are produced by Bell Communication Research (BellCore) in their NPA-NXX V & H Coordinates Tape and NECA Tariff FCC No. 4.

FORMULA:

$$\text{Mileage} = \sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$
